## TECHNICAL SKILLS

JavaScript, jQuery, React.js, HTML5, CSS3, Bootstrap, git, Github, Google Analytics, AJAX, API's (YouTube, Spotify, Twitter, Google Maps, etc), REST, MVC, Node.js, Express.js, Handlebars, NPM, MySQL, Sequelize, MongoDB, Mongoose, Firebase.

## APPLICATIONS

### *Evolve Sports Chiropractic* 2017

- Designed a website for a Chiropractor located in Carlsbad, CA. Our team completely overhauled the old design and built in mobile-friendly features to make the site polished.
- I created image slideshows, jQuery content, mobile-friendly format, and worked on site accessibility. Our team used HTML, CSS, Bootstrap, jQuery, and Google analytics to complete this project.
- <http://www.evovesportschiropractic.com>

### *Automation Nation* 2017

- Created a voter feedback application, which connects users with their representatives. This web app enables elected officials to post bills that are up for a vote, and allows voters to record their input.
- I created the controllers for the voter and politician pages, in addition to the data layer and front-end. Our team utilized Node, MySQL, Sequelize, and Handlebars to create this MVC application.
